Criteria 7.3.1_SLS-NGP_InstitutionalDistinctiveness_2023-2024

Title of Practice: Strong Industry-Academia Linkages

Objectives of the Practice:

Strong industry-academia linkages are pivotal for fostering a dynamic and relevant educational environment. The primary objective of these partnerships is to bridge the gap between theoretical knowledge and practical application. By aligning academic curricula with industry needs, institutions can ensure that students acquire skills that are directly applicable to the workforce. This alignment not only enhances the employability of graduates but also ensures that they are equipped to address real-world challenges effectively. Industry involvement in curriculum design, guest lectures, internships, and projects ensure that the education provided is both current and practical.

The Practice:

This practice has established robust connections with the legal industry and leading law firms. Regular interactions with industry experts through guest lectures, workshops, and internships ensure that the curriculum remains relevant and that students are industry-ready upon graduation.

Evidence of Success:

As a result of the Strong Industry-Academia Linkages, the students of batch 2019-2024 of Symbiosis Law School, Nagpur received placement offers and were recruited by prestigious companies and law firms. Alongside these, students have received the opportunity to work under learned Advocates and other dignitaries in legal field who will provide them with great insights and experience in the field, and many have decided to pursue their studies further to gain more knowledge and to diversify their horizons further to reach their goals. Students have secured lucrative packages exceeding ₹16,00,000, while preplacement offers (PPOs) in a similar range are facilitated through workshops, seminars, webinars, etc. These avenues enable students to forge connections not only within the legal field but also across diverse sectors, enriching their prospects.

Problem Encountered and Resources Required:

Several key challenges have been identified that have shaped our commitment to strong industry-academia linkages. These challenges encompass insufficient funding for joint initiatives and lack of dedicated personnel for managing partnerships can hinder the effectiveness of these linkages. To overcome these issues, institutions require
